### **KEYSTONE LAWN GRASS SEED!**

Skillfully blended for sunny lawns and shady lawns — fertile soils and poor soils — a mixture for any condition!

Below are brief descriptions of our fine Keystone Lawn Mixtures:

**KEYSTONE SUPREME** (Vitamin B1 & Hormone Treated) — for the trade that demands the very finest. **Supreme** is a skillful blend of imported and domestic grasses, cleaned and recleaned to perfection, then B<sub>1</sub> Vitamized and Hormone treated. **Supreme** contains no Rye Grass or Red Top.

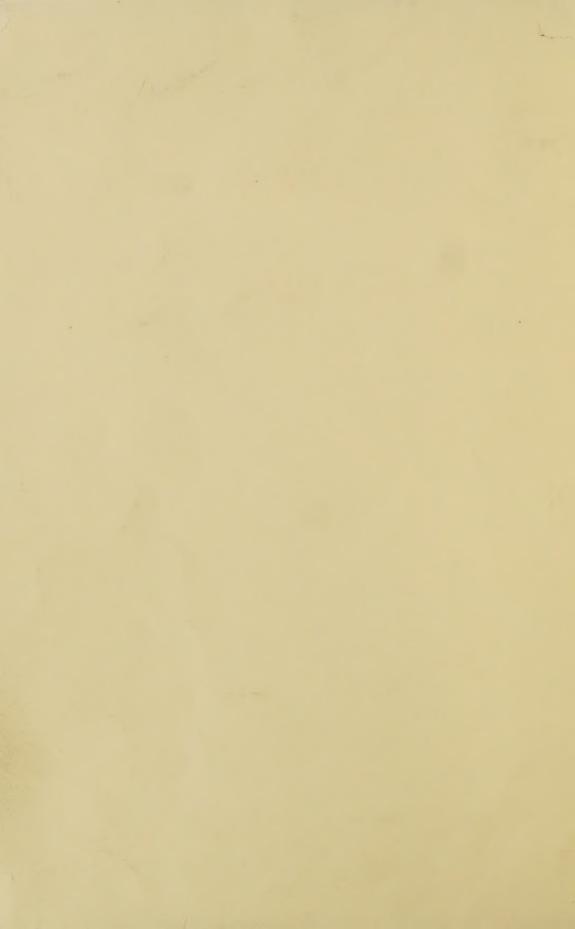

**KEYSTONE SHADY SUPREME** (Vitamin B1 & Hormone Treated). Special Blend for shaded areas. A special blend of **Supreme**, including fine grasses highly tolerant to shade. Recommended for areas receiving one-half day or less of full sunlight.

KEYSTONE CITY LAWN (Vitamin B1 & Hormone Treated) — specifically blended to give dependable performance under city growing conditions. It has as its base a selection of the most suitable permanent grasses combined with sturdy, quick-growing grasses which act as a nurse crop, gradually disappearing as the permanent grasses become established.

**KEYSTONE SHADY LAWN** (Vitamin B1 & Hormone Treated). Special Blend for shaded areas. The popular **Keystone City Lawn** mixture adapted for shade. Recommended for dense shade or lawn areas receiving one-half day or less of full sunlight.

HORSESHOE LAWN GRASS (formerly Mound City Lawn Grass). A blend of quick-growing grasses for use where an immediate turf is wanted in soil of poor to medium fertility. It makes a good, seasonal lawn. (Not packed in 1 Lb. cartons — cloth bags only).

See inside this list for prices or write for additional information — but don't delay! Order today and get your share of the lawn grass business!
